Kirkland Academy For Excellence – Labor of Love Day Camp (KAE-LOL Day Camp)

General Information

Overview

The **Kirkland Academy For Excellence – Labor of Love Day Camp (KAE-LOL Day Camp)** will operate Monday through Friday from June 13 – July 1, 2016. The three (3) one week day camp sessions will operate from 7:30 am until 5:00 pm. The day camp will serve elementary school students. The KAE-LOL Summer Day Camp, designed around four themes, will offer academic instruction in the morning and enrichment activities in the afternoon. There are also three (3) planned field trips to sites that will be both educational and designed to increase the cultural capital of the participating students. The KAE-LOL Summer Day Camp will provide small group instruction organized around grade levels. The academic focus includes related reading and writing instruction with a special focus on STEAM (Science, Technology, Engineering, Art, and Mathematics) activities.

Goals

There are four goals for the Kirkland Academy For Excellence Summer Labor of Love Day Camp.

- To provide academically enriching activities and experiences designed to close the opportunity gap between the communities of Southern California.
- To provide nutritious meals and snacks for children during the summer months when schools are out of session.
- To provide a safe and supervised environment for children when schools are out of session.
- To increase the cultural capital of children by exposing them to enriching experiences and activities.

Weekly Themes

Each week will focus on one thematic unit.

1. **“Why? Camp ~ Summer Fun”** will give students a chance to explore the scientific process. They will develop hypothesis and conduct experiments to prove or disprove scientific theories. Students will create science fun kits to take home. The field trip will take the day campers to the Discovery Center in Santa Ana where they will continue to explore science fun!
2. **“Where in the World are the Mammals?”** will give students an opportunity to explore mammals on our planet. They will study the structure of mammals, their life cycle, and the environment in which mammals live on a variety of continents. The field trip will take the students to the Los Angeles Zoo to see mammals up close and personal!
3. **“Robots at Work”** will give students an opportunity to explore the concept of robots and how they can help us. They will program robots and design robotic mazes. We are planning to visit a robotics laboratory at a local college or university.

Student Pledge

I will arrive on time and come prepared to LEARN.
I will love and respect myself as a special person that God has created.
I will respect the rights and property of others at all times.
I will seek EXCELLENCE in all that I do or say.

Agreements

I will follow the directions of all adults the first time they are given.
I will keep my hands, feet, and all objects to myself.

Volunteers
